

POINT OF VIEW

3 Eurovision vital – a vital vision of Europe

Sebastian Belz

STRATEGIES

6 Social costs of transport in Switzerland

Measuring the impact of transport on the society and quantifying compliance with the polluter pays principle
Christian Gigon
Alexandra Quandt

BEST PRACTICE

10 Urban development and e-mobility in Malaysia

The German Programme “Export Initiative for Green Technologies”
Yazmin Stoffer

13 The MobiliseYourCity Partnership

An international alliance to foster sustainable urban mobility transformation
Markus Delfs
Michael Engelskirchen
Oliver Lah

- 18 Mobile system for road inspection and 3D modelling**
Introducing novel technology within the project “Digital Roads New Zealand”
Sergey Zuev
Anko Börner
Hongmou Zhang
Ines Ernst
Martin Knoche
Reinhard Klette
- 22 Secure, helpful, lovable**
Incorporating user needs in the design of autonomous vehicles systems for public transport
Annika Dreßler
Jan Grippenkoven
Meike Jipp
Klas Ihme
Uwe Drewitz
- 26 Products in a nutshell**
Overview of selected mobility solutions
- 26 World’s biggest urban ropeway network completed
- 27 Chances and challenges: E-scooters in the City of Portland
- 27 First cab-less autonomous e-truck in commercial operations on public road
- 28 Chinese electrical air taxi to be tested in Linz
- 28 Roadscanners Oy reconcentrates on road business

SCIENCE & RESEARCH

- 29 Dominion**
A realtime middleware for connecting functions in highly automated vehicles
Björn Hendriks
Christian Harms
Michael Kürschner
- 34 Dwell time forecast in railbound traffic**
Procedure and first evaluation
Johannes Uhl
Ullrich Martin
- 38 New trends in transport systems**
Random selection of European Friedrich-List-Prize submissions
Advanced automation in railway operations
Impacts, requirements and potentials
Martina Zeiner, Martin Smoliner
Challenging assumptions about traveller behaviour
The benefits and challenges of using Bluetooth data to examine repeated behaviour
Fiona Crawford
Risk analysis of dangerous goods transportation
Libor Krejčí
TSCLab – Traffic Signal Control Laboratory
A tool for performance monitoring and evaluation of adaptive traffic signal control in VISSIM
Daniel Pavleski

CONTENT

June 2019

- 48 Projects in a Nutshell**
Overview of selected Mobility Research Projects
- 48 Bringing autonomous driving to life
- 48 New breakthroughs in research on super-batteries
- 49 Particulate matter from aircraft engines affects airways
- 49 Training data for autonomous driving
- 50 Traffic prediction system based on neural networks
- 50 Metallic 3D printing on track for automotive series production

COLUMNS

- 51 FORUM**
Events
- 51 Preview: European Transport Conference
- 51 Preview: InnoRail Budapest
- 52 Preview: Hypermotion 2019
- 52 Book launch: Mega Cities – Mega Challenge
