SCIENCE & RESEARCH

- 36 Innovative transport systems**
15th European Friedrich-List-Prize - a random selection of this year's submissions
Adrian Gunter
Markus Loidolt
Ivan Cvitić
Dávid Földes
Kerényi Tamás
Johannes Weber
- 54 Tackling innovation barriers**
An empirical investigation for sustainable transport services
Konstantin Krauss
- 58 Implementation of autonomous vehicle onto roadways**
A step to a Theory of Automated Road Traffic
Heinz Doerr
Andreas Romstorfer
- 63 Environmental effects of the Covid-19 lockdown**
The example of an EU online convention
Matthias Gather
Claudia Hille
- 66 Development of mobility behaviour in tourism**
Evaluation of requirements in mobility behaviour of tourists in rural and inner-city regions
Marcel Weber
- 70 Projects in a Nutshell**
Overview of selected mobility research projects
- 70 Zero-emission commercial flights within 15 years?**
- 70 Graphite instead of gold: Thin layers for better hydrogen cars**
- 71 Global rail market continues to grow**
- 71 Green shipping: Hybrid propulsion at the highest safety level**
- 72 Fly on holiday in view of climate change?**
- 72 Clean fuel from sunlight, CO₂ and water**
